Subject: Web Technologies

Software Requirements Specification (SRS) Document

1. Introduction: This document serves as the Software Requirements Specification (SRS) for the development of the Red Mango restaurant website project. The website aims to provide users with information about the Red Mango restaurant, its menu, chef, and facilitate reservation bookings.

2. Scope: The Red Mango restaurant website project consists of two main pages:

- Home Page: Provides an overview of the Red Mango restaurant, including sections for home, about us, chef, and menu.
- Reservation Page: Allows users to make reservations at Red Mango by filling out a form with their name, email, date, time, party size, and optional special requests.

3. Functional Requirements:

3.1 Home Page:

- Navigation: Users can navigate to different sections of the website using the navigation menu.
- Content: The home page contains sections for home, about us, chef, and menu, each providing relevant information about Red Mango.
- Images: Visually appealing images are displayed to enhance the aesthetics of the home page.

3.2 Reservation Page:

- **Form Fields:** Users are required to fill out the reservation form with their name, email, date, time, and party size.
- **Validation:** Input fields are validated to ensure the accuracy and completeness of user-provided information.
- **Submission:** Upon submission of the reservation form, the user's booking details are sent to the Red Mango restaurant's backend system for processing.

4. Non-Functional Requirements:

4.1 Performance:

- The Red Mango website should load quickly to provide a seamless user experience.
- It should be able to handle multiple reservation requests simultaneously without experiencing performance degradation.

4.2 Usability:

- The website should be intuitive and easy to navigate, catering to users of all levels of technical proficiency.
- It should be visually appealing, with consistent design elements and a user-friendly layout.

4.3 Compatibility:

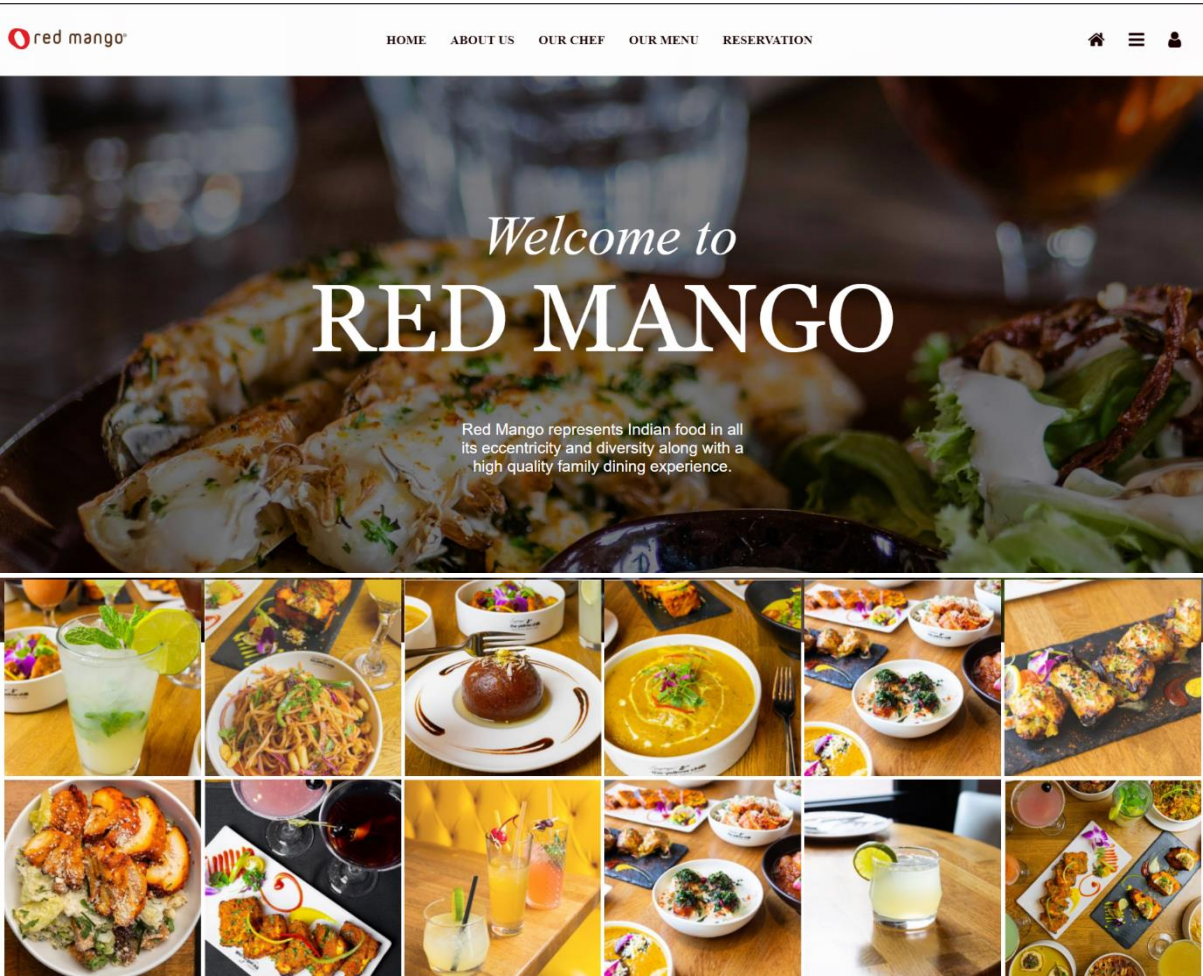

- The Red Mango website should be compatible with a wide range of web browsers, including Chrome, Firefox, Safari, and Edge.

- It should also be responsive and adapt to different screen sizes and resolutions, including desktops, laptops, tablets, and smartphones.

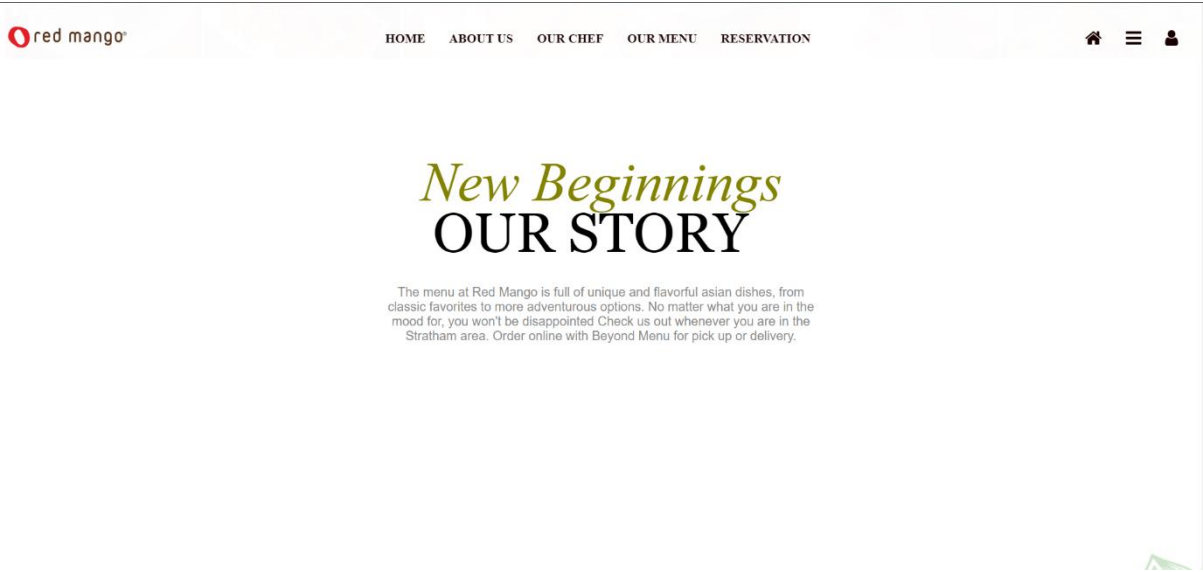

5. Conclusion: This SRS document outlines the requirements for the development of the Red Mango restaurant website project, including its functionality, performance, usability, and compatibility. By adhering to these requirements, the website aims to provide users with a seamless and enjoyable experience while interacting with the Red Mango restaurant's online platform.

About us:

Our chef:

[HOME](#) [ABOUT US](#) [OUR CHEF](#) [OUR MENU](#) [RESERVATION](#)

OUR CHEF

He is one of the most recognized faces of Indian television. He is in people's living rooms for almost two decades introducing them to the delights of Indian and international cuisine in his inimitable easy going and cheery manner. The show Khana Khazana was one of those trailblazing cookery Shows on Zee Network. Little wonder then that he has a massive fan following across all age groups, genders and countries.

Passion for food has driven him to every nook and corner of the world. From becoming the youngest executive chef at a five star hotel, to hosting his own cooking shows, it is his love for cooking that has got this far.

Our menu:
